Smut in the Wheat.

Since the new wheat has comnenced to come into market the fact has shown itself that a large quantity of it is damaged by the smut. This occasions quite a cut in price in the home market, and we understand when the grain is tested at the elevators a further reduction is made, and the grain affected put in as No. . According to this the farmers in Henry county will lose a snug sum on account of smut.

Predicts Weather Prophet Foster.

My last bulletin gave forecasts of the storm waves to cross the continent from July 29th to August 2d, and the next will reach the Pacific coast about August 3d, cross the western mountains by close of the 4th, the great central valleys from 5th to 7th and the eastern states about the 8th. This disturbance will be at its great-

est force west of the Mississippi about 4th and 5th. Rainfall will be deficient except in a few limited localities.

This will also be an earthquake period. It will be noted that the great turned from their Chicago visit last earthquakes at Constantinople, July 9th to 13th, occurred very near the predicted dates. From July 31 to August 6th will probably bring fully as great earthquakes as did the July

disturbance. The warm wave will cross the western mountains about August 3d, the great central valleys about the 5th and the eastern states about the 7th. The cool wave will cross the western mountains about the 6th, the great central valleys about the 8th and the eastern states about the 10th.

August will bring spots of drouth in many places and corn and cotton will be injured to some extent. drouth will not be general but, taking the whole of the United States and Miss Wright, Professor of Latin in Canada, the month will average warmer and drier than usual.
